College Code: 155

2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

The teachers identify the advanced learners and slow learners through the following ways:

- ❖ Past Performance in examinations.
- ❖ One-to-one interaction with the students.
- ❖ Meetings of mentors with their respective mentees.
- ❖ Continuous performance assessment of the students throughout the year.

Once the advanced learners are identified, the college takes the following steps to encourage them to enhance their understanding:

1. The students are personally guided by subject teachers who provide and coach them with additional study material to challenge their mental capabilities.
2. These students are encouraged to be the group leaders in the common projects and group study.
3. Advanced learners are given various projects, projects and opportunities to participate in intra and inter collegiate conferences/seminars/workshops/symposia etc.
4. The advanced learners are felicitated for their achievements on the Annual Prize Distribution Ceremony with prizes and certificates.
5. Remedial teaching for slow learners. Besides additional guidance by the subject teachers.
6. During the mentor-mentee meetings, mentors guide these students and help them to improve, and achieve their academics and overall performance.
7. Some special students are referred to the counselling cell. The counselling cell counsels the students as well as their parents of such students.
